Worksheet #2

“My So-Called Digital Life” Digital Photo Categories Worksheet

Activity Directions:

Within groups of 4, select any three categories from the six listed below. Discuss the three categories based on the questions provided and have one person record important points on the Group Record Page. After discussing them, you'll have another person in the group report back to the whole class on what you recorded. Every student should take notes on this worksheet for all of the categories presented.

Before and after school

What activities do you do right before school (2 hours before)?

What activities do you do after school (for 3 hours following school)?

Classroom Learning

What is it like in your typical classroom learning experience?

Why is it like that?

Worksheet #2

Technology in the schools

What types of technology do you personally use (such as cell phones, handheld computers, graphing calculators, rulers, video games, electronic dictionaries etc.)?

How do you use them?

What types of technologies does your school provide for your use?

What technologies do your teachers use for teaching?

Who has access to more technology? (Do you have more personal technology than the school or does the school provide you access to more technology than you have personally)?
